DETAILED ACTION

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(a) the invention was known or used by others in this country, or patented or described in a printed publication in this or a foreign country, before the invention thereof by the applicant for a patent.

Claims 10,13 and 14 are rejected under 35 U.S.C. 102(a) as being anticipated by either Suzuki et al or Yatsuka et al. These references both disclose applying a mixture of magnetic particles such as gamma ferric oxide or a ferromagnetic alloy and a binder on to a substrate such as a sheet of paper or plastic or card, drying, curing and magnetizing. See col. 1, lines 1-21, col. 7, lines 1-15 and Example 1 of Yatsuka et al and col.1, lines 1-25 and col. 3, lines 15-65 of Suzuki et al.

Claims 15, 17 and 19 are rejected under 35 U.S.C. 102(a) as being anticipated by Yatsuka et al or Suzuki et al for the same reasons as urged in the above paragraph.

Claims 20-27 are rejected under 35 U.S.C. 102(a) as being anticipated by Yatsuka et al or Suzuki et al for the same reasons as urged in the above paragraph.

Claim Rejections - 35 USC § 103

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Art Unit: 1762

Claims 11, 12, 16 and 18 are rejected under 35 U.S.C. 103(a) as being unpatentable over either Yatsuka et al or Suzuki et al for the same reasons as urged in the above paragraph. The limitations of these dependent claims are conventional and do not render these claims unobvious. See for example Fields at col. 2, lines 10-15 for an adhesive binder.

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
